of the British Empire which are now free of duty shall continue to enjoy entry free of customs duty into the United Kingdom.

Article 2.

His Majesty's Government in the United Kingdom undertake in respect of the goods the growth, produce or manufacture of India enumerated in Schedule I to this Agreement, that the difference between the rates of the duties of customs on such goods on importation into the United Kingdom when consigned from any part of the British Empire and the rates upon similar goods the growth, produce or manufacture of any foreign country shall not be less than the rates set out in that schedule.

Article 3

His Majesty's Government in the United Kingdom undertake that, in the event of any greater preference than the preference accorded by this Agreement being accorded in respect of goods of the kinds specified in Schedule I the growth, produce or manufacture of any other part of the British Empire, such greater preference will be extended to similar goods grown, produced or manufactured in India and consigned from any part of the British Empire.

Article 4.

His Majesty's Government in the United Kingdom undertake to maintain until the 15th August 1942, for tobacco grown, produced or manufactured in India and consigned from any part of the British Empire the existing margin of preference over foreign tobacco, so long, however, as the duty on foreign unmanufactured tobacco does not fall below 2s. 6½d. per pound, in which event the margin of preference shall be equivalent to the full duty.

Article 5.

His Majesty's Government in the United Kingdom recognise the importance attached by the Government of India to the development of the use of unmanufactured Indian tobacco by tobacco manufacturers in the United Kingdom, and undertake that they will co-operate to any further measures that may appear necessary and practicable in order to facilitate the marketing of such tobacco in the United Kingdom.

Article 6.

1. His Majesty's Government in the United Kingdom undertake that as and after the 15th August 1930, drawback of duty shall not be allowed in the case of goods other than linseed oil, manufactured in the United Kingdom and exported or shipped as stores therefrom in respect of linseed used in the manufacture of such goods. For the purposes of this Article "linseed oil" includes linseed oil refined or heat-treated or both refined and heat-treated, and "unmixed" means not mixed with any substances other than driers.

2. His Majesty's Government in the United Kingdom undertake that on and after the 15th August 1930, drawback shall not be allowed in the case of groundnut oil (hydrogenated or not) manufactured in the United Kingdom and exported or shipped as stores therefrom in respect of groundnuts used in the manufacture of such oil.

Article 8.

The Governments of the non-self governing Colonies, the Protectorates and Protected States will accord to India any preference which may for the time being be accorded to any other part of the British Empire, and the Governments of the Colonies and Protected States shown in Schedule III to this Agreement will accord to India preference as the commodities and at the rates shown therein.

Provided that the operation of the first paragraph of this Article shall not extend to any preference accorded by Northern Rhodesia to the Union of South Africa, Southern Rhodesia and the High Commission Territories in South Africa.

Provided also that in the case of Ceylon the first paragraph of this Article shall apply only so far as is consistent with the terms of Article XI of the Agreement.

Article 9.

The Government of India undertake, in respect of goods the growth, produce or manufacture of the United Kingdom of the kinds specified in Schedule IV to this Agreement which comply with the laws and statutory regulations for the time being in force defining Empire goods for the purpose of customs duties, that the difference between the rates of customs duty on such goods on importation into India and the rates upon similar goods the growth, produce or manufacture of any foreign country shall not be less than the margin set out in that schedule.

Article 10

1. In this Article—

The expression "cotton year" means a year beginning on the 1st January.

The expression "cotton piece goods year" means a year beginning on the 1st April.

A cotton piece goods year and the cotton year in which that cotton piece goods year begins are referred to as "corresponding", and the expression "the following cotton piece goods year" means in relation to a cotton year the cotton piece goods year beginning on the 1st April next after the end of that cotton year.

The word "yard" means a linear yard.

The word "bale" means the weight of lint cotton contained in the standard Indian bale of gross weight 400 lb and nett weight 392 lb.

The expression "United Kingdom cotton piece goods" means fabrics manufactured in the United Kingdom of the kinds which, at the date of the signature of this agreement, were assessable to duty on import into British India under item 48 (6) or item 48 (8) of the First Schedule to the Indian Tariff Act, 1934, at the rates applicable to fabrics of British manufacture.

The expression "Indian raw cotton" means raw cotton grown in India.

2. His Majesty's Government in the United Kingdom undertake that they will continue to use all possible efforts in co-operation with commercial interests to stimulate the consumption of Indian cotton in all possible ways including technical research, commercial investigation, market liaison and industrial propaganda. They have taken note that it is the desire of cotton growers in India that as much as possible of their production of short and fair staple varieties of cotton should be absorbed in the United Kingdom. They have also taken note, and invite the Government of India to take note, that the Lancashire Indian Cotton Committee, set up by His Majesty's Government in the United Kingdom to stimulate the consumption of Indian cotton, have expressed their sympathy with that desire and their intention to take all practicable steps to assist in its fulfilment. It is recognised that the fulfilment of the foregoing objectives largely depends on the continued pursuit by all interests concerned in India of the policy of improving the quality and staple of Indian cotton exported to the United Kingdom by all practicable means.

3. From the entry into force of this Agreement the customs duties charged on imports into India of United Kingdom cotton piece goods shall not, save as provided in paragraphs 5 and 7, exceed the following rates, hereinafter referred to as the base rates, namely:—

(a) Printed goods—11½ per cent. *ad valorem*;

(b) Grey goods—15 per cent *ad valorem*, or 3 annas 7½ pies per lb., whichever is the higher;

(c) Other goods—15 per cent *ad valorem*.

4. If in any cotton piece goods year the total quantity of United Kingdom cotton piece goods imported into India does not exceed 600 million yards, the duties charged on imports of such goods into India after the end of that year and until the end of any cotton piece goods year in which the total quantity of such goods imported into India exceeds 425 million yards, shall not exceed the base rates reduced by 2½ per cent of *ad valorem*, and a proportionate reduction shall apply to the alternative specific duty on United Kingdom grey cotton piece goods.

5 If in any cotton piece goods year the total quantity of United Kingdom cotton piece goods imported into India exceeds 500 million yards, the duties charged on imports of such goods into India in the following cotton piece goods year may be increased above the basic rates to such rates as may be deemed necessary for the purpose of restricting imports of such goods during the year to the maximum yardage figure for the preceding cotton piece goods year, but shall be reduced to the basic rates (or, where the provisions of paragraph 4 are applicable, in accordance with those provisions) after the end of any cotton piece goods year in which the total quantity of such imports into India has not exceeded 425 million yards

The expression "maximum yardage figure" for any cotton piece goods year means 500 million yards, or, for a year corresponding to a cotton year in which there is a deficiency as defined in paragraph 6 500 million yards reduced by the appropriate figure in accordance with the provisions of paragraph 6.

6 For the purpose of determining the appropriate rates of duty to be charged on United Kingdom cotton piece goods under this Article, the quantity of United Kingdom cotton piece goods actually imported into India in any cotton piece goods year corresponding to a cotton year in which there is a deficiency shall be deemed to have been increased by 25 million yards for every 50,000 bales of the deficiency or for any part thereof, provided that the deficiency does not exceed 100 000 bales in the cotton year ending 31st December 1939, and 150,000 bales in any subsequent cotton year.

The word "deficiency" means the amount by which imports of Indian raw cotton into the United Kingdom fell below the following quantities :—

For the cotton year ending 31st December 1939 —500,000 bales.

For the cotton year ending 31st December 1940 —550,000 bales

For every subsequent cotton year—600,000 bales.

7 Notwithstanding anything contained in the preceding paragraphs, if the imports of Indian raw cotton into the United Kingdom fall below 400 000 bales in the cotton year ending 31st December 1939, or in the cotton year ending 31st December 1940, and 450,000 bales in any other cotton year, the duties charged on imports of United Kingdom cotton piece goods into India in the following cotton piece goods year may be increased above the basic rates to such extent as the Government of India may, after consultation with His Majesty's Government in the United Kingdom, determine.

8. (1) If in any cotton year the quantity of Indian raw cotton imported into the United Kingdom exceeds 750,000 bales, the rate of duty charged on United Kingdom printed cotton piece goods imported into India in the following cotton piece goods year shall not exceed the duty charged in that year on other United Kingdom cotton piece goods imported into India

(2) If in any cotton piece goods year in which a reduction in the duty on United Kingdom printed cotton piece goods takes effect under the provisions of this paragraph, or in any following cotton piece goods year in which the same reduction remains in force, the quantity of United Kingdom printed cotton piece goods imported into India is in excess of the quantity of such goods so imported in the cotton piece goods year immediately preceding that in which the said reduction first took effect, such excess up to a maximum quantity of 25 million yards shall not be taken into account for the purposes of determining whether or not the figure of 425 million yards specified in paragraph 4 of this Article or the figure of 500 million yards specified in paragraph 5 of this Article has been exceeded.

9 For the purpose of calculating imports in any cotton year or cotton piece goods year under this Article there shall be deducted the amount of re-exports from the United Kingdom of Indian raw cotton in that year and the amount of re-exports from India of United Kingdom cotton piece goods in that year.

10 Any alteration of the duties charged on United Kingdom cotton piece goods imported into India which falls due to be made under the provisions of this Article shall come into effect not later than the 17th April of the cotton piece goods year to which it relates, and the relative provisions of this Article shall be deemed to have been duly fulfilled if such alteration takes effect on or before that date.

Article 11.

The Government of India undertake to accord to the non-self-governing Colonies, the Protectorates and Protected States, and the Mandated Territories of Tanganyika, the Cameroons under British Mandate and Togoland under British Mandate, preferences on the commodities which comply with the laws and statutory regulations for the time being in force defining Empire goods for the purpose of customs duties and at the rates shown in Schedule V to this Agreement, and also any preferences for the time being accorded to any part of the British Empire other than Burma if His Majesty's Government in the United Kingdom so request.

Provided that the Government of India shall not be bound to accord any preference to Ceylon except as provided in Article 13 of this Agreement.

Provided further that the Government of India shall not be bound to continue to accord any preferences to any Colony, Protectorate or Protected State, which, not being precluded by international obligation or, in the case of Nigeria, by the declared policy of His Majesty's Government in the United Kingdom from according preferences, either (i) accords to India no preferences or (ii) accords to some other part of the British Empire (in the case of Northern Rhodesia, excepting the Union of South Africa, Southern Rhodesia and the High Commissioner Territories in South Africa) preferences not accorded to India.

Article 12.

The Government of India undertake to accord to goods the growth, produce or manufacture of any of the non-self-governing Colonies, the Protectorates and Protected States, and the Mandated Territories of Tanganyika, the Cameroons under British Mandate, Togoland under British Mandate and Palestine, treatment not less favourable than that accorded to similar goods the growth, produce or manufacture of any foreign country.

Article 13

1. The Government of India will, as soon as may be after the conclusion of this Agreement, enter into negotiations with the Government of Ceylon regarding the trade relations between India and Ceylon

2 The Government of Ceylon will continue in force during the interim period the preferences at present accorded to India as set out in Schedule III to this Agreement, and the Government of India will continue to accord during the interim period :—

(a) to Ceylon the preferences to be accorded under Article 12; and

(b) to Ceylon and to the Colonies, Protectorates, Protected States and Mandated Territories to which preferences are to be accorded under Article 11, preferences at the rates shown in Schedule VI to this Agreement on the commodities named in that schedule which comply with the laws and statutory regulations for the time being in force defining Empire goods for the purpose of customs duties

3. In this Article the expression "the interim period" means a period ending on the date on which any Agreement between the Government of India and the Government of Ceylon resulting from the negotiations hereinbefore mentioned comes into effect, or a period of six months from the date on which the present Agreement comes into effect, whichever is the shorter Provided that, if it appears likely that the said negotiations will be protracted beyond the said period of six months, His Majesty's Government in the United Kingdom and the Government of India shall consider in consultation whether the interim period should be extended

Article 14.

His Majesty's Government in the United Kingdom undertake to extend to India any tariff preferences which are, or may be, accorded to Canada, the Commonwealth of Australia, New Zealand, the Union of South Africa, Eire, Newfoundland, Southern Rhodesia or Burma, and the Government of India undertake to extend to the United Kingdom any

tariff preferences which are, or may be, accorded to Canada, the Commonwealth of Australia, New Zealand, the Union of South Africa, Eire, Newfoundland or Southern Rhodesia.

Article 15

In the event of circumstances arising which, in the judgment of His Majesty's Government in the United Kingdom or of the Government of India, as the case may be, necessitate a variation in the terms of this Agreement, the proposal to vary its terms shall be the subject of consultation between the two Governments.

Article 16.

This Agreement shall come into force on a date to be mutually agreed between the two Governments On the coming into force of the present Agreement, the Agreement concluded between His Majesty's Government in the United Kingdom and the Government of India at Ottawa on the 20th August 1932, shall cease to have effect between the United Kingdom and India Pending the coming into force of the present Agreement, the two Governments will apply its provisions so far as may be possible The present Agreement shall continue in force until the 31st March, 1942. No. 681 D/34, dated 24th July 1934, published on page 718 of Part I-B of the *Fort St. George Gazette*, dated the 24th July 1934, and with reference to the syllabus in Typewriting—Higher Grade (Oral and Practical portion only), the following list of duplicating machines that have been approved for use in accordance with the Government Technical Examinations is published for the general information of the heads of all general institutions in the Presidency and in the Indian States and of the candidates offering themselves for the examinations:—

1 Multiprint, hand feed.
2 R.R.R. No. 14, hand feed (Old R.R.R. No. 11).
3 Roneo No. 2, hand feed.
4 Roneo No. 100, self feeding.

13 Ellams Duplicator B-10 Model.
14 Copygraph Duplicator.

10. The knowledge of the duplicating machines mentioned above with regard to the cutting of stencil and the taking of copies on them will be demanded of candidates with effect from the examination of January 1935. They are, therefore, warned to pay adequate attention to this part of the syllabus. Candidates are expected to bring with them when they attend the Oral and Practical examinations, any one of the above duplicating machines in addition to the particular kind of typewriter which they used while answering the written test.

11. *Seat and accommodation for the candidates.*—(a) Candidates will be permitted to bring with them for their use at the examination hall, their own tables, chairs or stools, if they choose; provided they take care to see that by so doing, they do not give room to the slightest disturbance being caused in the examination hall.

(b) The candidates will be allowed to take their seats in the examination hall five minutes before the appointed hour for giving out the question paper and supplied with the necessary paper for answering and get their machines ready for work with paper inserted to them and to have their register numbers at the right hand corner of their answer papers and the particular kind of Typewriter they use at the left hand corner, typed before the question paper is given to them.

12. Candidates are strictly told not to write anything on the question paper itself. Calculations or any other points they wish to note must be written on one of the blank sheets supplied to them and such sheets including the carbon papers should be left on the table. Further, candidates are strictly warned not to take carbon copies more than what is required of them in the question paper.

13. The candidates will, if necessary, be examined in batches but at least every *four* candidates for the Lower grade, at least every *two* candidates for the Higher grade, must have one machine among them.

14. Managers and Instructors of Institutions concerned are expected to see that their pupils are supplied with Typewriting machines in proper working order.

15. Managers and Instructors will be allowed only the examination hall in the intervals between the various batches to inspect the machines and to remedy any defects. They should take care to see that they do not remain in the examination hall while the question paper is being distributed to the candidates or the examination hall or while their pupils are answering the question papers.

16. If, however, a candidate reports to the Superintendent that his machine has gone out of order, the Superintendent will intimate this to the Manager or Instructor, if he is waiting outside on the premises, and will permit such Manager or Instructor to enter the hall [though the candidates may be at work] to inspect the machine and to remedy the defect or to supply another machine. It must, however, be clearly understood that the Superintendent incurs no responsibility in this matter; his action will be purely *ex gratia*, the whole responsibility resting on the candidate and the Manager or Instructor.

17. A similar concession will be allowed in the case of a private candidate, if he has moreover outside who is willing to inspect the machine and put it right, etc.

18. *No extra time will be given to candidates to compensate for loss of time when the machine is out of order and is being put right.*

In the Mufassal.

19. Heads of Institutions who are desirous that their pupils should be examined in batches and private candidates who desire to be similarly examined should make the necessary arrangements with the Chief Superintendent concerned *four* days before the examination and furnish him with all the necessary information as to the number of candidates and machines and the time at which each batch will attend on the day fixed for the examination.

At Madras.

20. Lower Grade.—**Candidate's Hall Ticket.**—Tickets of admission specifying the particular batch (first or second and so forth in which the candidates elect to appear) will be issued on Monday, the 23rd October 1939, between 11 a.m. and 5 p.m. at the Office of the Commissioner for Government Examinations, Old College, Nungambakkam. These tickets should be shown at the entrance to the examination hall. Candidates who produce tickets will be admitted to the batch specified in the tickets. Candidates who do not provide themselves with tickets cannot claim to be admitted to any particular batch. They will be admitted only, if spare seats are available in the hall, i.e., after seats are reserved for those who have registered their names and obtained tickets for the batch. Candidates who do not hold tickets will accordingly have to wait at the entrance to the examination hall from the hour of commencement of the first batch and take their chance of being provided with seats in the first or in any subsequent batch. To avoid all inconvenience and possible disappointment, heads of institutions who are desirous that their pupils should be examined in batches and private candidates who desire to be similarly examined are particularly requested to call at the office on Monday, the 23rd October 1939, with all the necessary information as to the number and name of candidates that will attend at the particular batch on the day fixed for the examination and obtain tickets of admission accordingly. *No tickets can on any account be sent by post whether to heads of institutions or to private candidates.*

21. Candidates that have such a separate machine and that do not want to be examined in batches are expected to appear for their examination with the third batch for the Lower grade. But this does not preclude them from registering their names for that batch and obtaining tickets accordingly.

22. Candidates for the *Higher grade* may appear for the first or second batch at their option and *no tickets accordingly are issued for the grade.*

23. Instructor's Hall Ticket.—Managers or Instructors of institutions and other persons who wish to be allowed into the examination hall in the intervals between the examinations of the various batches to inspect the machines and remedy any defects, are requested to call at the office on Monday, the 23rd October 1939, and have their names registered. Tickets of admission specifying their names, the institutions to which they belong, etc., will be issued to them and these should be produced at the entrance to the examination hall.

Both at Madras and in the Mufassal

Attention is particularly drawn to the following rules.

24. No candidate will be allowed to enter the examination hall unless he wears a clean and decent dress, and in all cases where good manners require it, a suitable covering for the head, nor will he be allowed to keep his shoes on unless they are shoes of English pattern, and socks and trousers are worn also.

25. No candidate suffering from any contagious disease will be admitted to the examination hall.

26. With a view to prove their identity to the Chief Superintendent of the examination, candidates will be required to produce, on the first day of their appearance for the examination, an identification certificate from a responsible person, preferably a Government official. Candidates appearing from recognized or approved schools should also obtain a similar certificate from the head of the institution concerned.

The following form of identification certificate is prescribed :—

1. This is to certify that the bearer ..... is known to me and that he is a bona fide candidate appearing for the Government Technical Examinations in... ... ... (subjects with grades have to be specified).

2. The signature of the candidate affixed below was taken in my presence.

Signature of the candidate.

Date.

Signature with designation or address.....
Date.....

27. Candidates are requested in note carefully whether their names have been printed in the nominal list and satisfy themselves whether particulars printed tally with those as given by them in their applications for admission to the examinations, in that any alteration with regard to their initials, name or class of community or any other correction that may appear necessary might be pointed out by them in writing to the Chief Superintendent.

28. *No candidate will, on any account,* be allowed to take *into the examination hall slates,* books, *or portion of a book, ruled sheets, memoranda or papers of any kind.* Any candidate detected in the violation of the rule or detected in speaking to or in any way communicating with or copying from each other and in communicating with any other person outside the examination hall or having recourse to any unfair practices will be sent out of the hall forthwith, and his conduct reported to the Commissioner for disciplinary action. The use of mathematical instruments for drawing figures or ruling lines will, however, be allowed.

29. *Strict silence* should be maintained in the examination hall.

30. Candidates are expected to take their seats in the examination hall at least five minutes before the time fixed for giving out the question papers. No candidate will be allowed to quit the examination hall on any day until the expiration of half an hour from the time fixed for the commencement of the examination and candidates arriving after the expiration of that half hour will not be admitted.

31. No candidate will be allowed to re-enter the examination hall during the hours of examination after once quitting it, nor to leave the hall without finally giving up his answer papers.

32. Candidates are forbidden to write down the answer to any question on the question paper itself; they will not be allowed to take any papers, except their question papers, out of the examination hall.

33. Candidates are forbidden to tear up paper, or to throw ink or papers on the floor. All "spoilt" papers, etc., should be left on the desk where the candidate has been writing.

34. Candidates may have to write their answers on both sides of the paper supplied to them and they will receive the necessary instructions on this point in the examination hall from the Chief Superintendent of the examinations.

35. No candidate will be allowed to exceed the time assigned to each paper.

36. As soon as candidates have finished writing their answers and wish to give up their answer papers, or at the end of the period prescribed for each particular part of the examination, each should rise from his seat and remain standing until one of the Superintendents has gone up to him and has received his answer paper from him. Any candidate wishing to ask any question of the Superintendent will pursue the same course but will on no account leave his seat.

37. The answer papers should be attached or pinned together at the upper left-hand corner, and the whole folded into two lengthwise (not crosswise into four). The register number, the place of examination and also (in the case of the examinations in Typewriting, the name and Model number of the Typewriter used) should be written out clearly by the candidates on the top right-hand side of the first page of the answer paper, as well as on the top of the paper after it is folded.

N.B.—(1) **Candidates are strictly forbidden to write or type their names on the answer papers.**

(2) Candidates should distinctly understand that failure to furnish even any one of these particulars may involve the rejection of their answer papers—particularly the answer paper sent on account the candidate's register number and name of centre are not be found.

38. Candidates whose names are not in the printed list furnished to the Chief Superintendent must submit a written declaration through the Chief Superintendent giving full particulars in regard to themselves including *their address*, and furnish such evidence as may be possible of their having applied for admission to the examinations at the proper time and paid the prescribed fees. The answer papers of such candidates will not be valued unless it is clear that the omission of their names is due to no fault of theirs.

39. Candidates choosing to change their place of examination without previous permission, or appearing at any centre other than the one at which they ought to have appeared according to the notice published in the Gazette, must not expect to have their papers valued or their results published. In all cases where permission has been granted, the memorandum or letter permitting the change should be produced for the satisfaction of the Superintendents.

40. *Any candidate who does not behave properly towards the Chief and Assistant Superintendents of the examinations or is suspected of bribery had recourse to malpractice of any kind in connection with the examination or whose answer papers contain objectionable matter, as liable to have his examination discontinued and also to be debarred from appearing again for any of the examinations under the control of the Commissioner for such term of years as the Commissioner may think fit, or, if the Commissioner is not satisfied for any reason whatever as to the trustworthiness of his results, he may be required to undergo a re-examination at some future date to be fixed by the Commissioner in any test or more of the subjects of the examination for which he appeared, his success or failure being determined on the results of such re-examination.*

41. Candidates are forbidden to communicate with the Examiners; should they do so, their answer papers will not be looked and further their conduct will be reported to the Commissioner for any action that he may deem fit.

42. No information can be furnished in regard to the results of a candidate in any subject or in regard to the marks obtained by him or in regard to the particular sections or subdivisions in which he may have failed. The names of successful candidates in each subject arranged in two classes, First and Second, will be published in the *Fort St. George Gazette*. The pass-list for each grade of a subject as published in the Gazette is complete and final. Applications from or on behalf of unsuccessful candidates asking for information as to the cause of failure or for revaluation of the answer papers will not be attended to. No revaluation of answer papers is permissible.

REVISED SYLLABUS IN THE THEORY OF STATISTICAL METHODS.

(To take effect from the examination of March 1941.)

(a) Probability.

I Definition: Laws of addition and multiplication.

II Elementary probability Law and Integral probability Laws of a Random variable, simultaneous probability, Laws of number of variables: Applications.

If $x_1, x_2, \ldots\ldots x_n$ are n variables such that $p(x_1, x_2, \ldots\ldots x_n)$ is their simultaneous probability law,

(i) $p(x_1, x_2, \ldots\ldots x_{n-1}) = \int_{-\infty}^{\infty} p(x_1, x_2, \ldots\ldots x_n)\, dx_n$

and its immediate extension

(ii) If $y_1, y_2, \ldots\ldots y_n$ are n functions of the x's, $p(y_1, y_2, \ldots\ldots y_n) = p(x_1, x_2, \ldots\ldots x_n) \left| \frac{\partial (y_1, y_2, \ldots\ldots y_n)}{\partial (x_1, x_2, \ldots\ldots x_n)} \right|$

(iii) Relative probability Law:—

$p(x_1, x_2) = p(x_1)\, p(x_2/x_1)$, where $p(x_2/x_1)$ is the probability Law of x_2 for a given x_1.

III Mathematical Expectation: Applications.

IV Bayes' Rule: Its criticisms.

V Fourier's Inversion formula: viz.,—

If $\phi(u)$ = Expectation of e^{iux}

$$\int_{-\infty}^{\infty} e^{iux}\, p(x)\, dx,$$

then, $p(x) = \frac{1}{2\pi} \int e^{-iux}\, \phi(u)\, du.$

Simple applications:

(i) If $\phi(t)$ = Expectation of x

$$= \int_{-\infty} p(x)\, dx$$

$$p(x) = \frac{1}{2\pi i} \int_{-\infty} e^{-tx-1}\, \phi(t)\, dt.$$

(ii) If x and y are independent and $z = x + y$, $\phi_z(t) = \phi_x(t) \cdot \phi_y(t)$, where $\phi(t) =$

$$\int e^{itx}\, p(x)\, dx.$$

VI Application of probability to simple problems in Insurance and Mortality Tables.

(b) Statistics.

I *Elementary Principles*:—Collection of data, charts and diagrams, Frequency curves, the method of samples in the study of large populations.

II *Statistical averages*.—The Arithmetic Mean, Mode and Median, Index numbers, Geometric and Harmonic Means.

III *Dispersion*.—The Standard Deviation, the Average Deviation, Semi-interquartile Range, Probable Error.

IV *Correlation*.—Definition of Regression: If x and y are two variables, the regression of x on y is

x_y = Expectation of x for a given value of y

$$= \int x\, p(x/y)\, dy$$

$$= \int x\, p(xy)\, dx \Big/ \int p(xy)\, dx.$$

Linear Regression, Correlation-Co-efficient, Multiple and Partial Regression, Multiple Correlation Surfaces in the case which all the regression equations are linear.

Distinction between Independence and non-correlation:—

(a) $p(x, y) = p(x)$, $p(x)$ for independence.
(b) $E(xy) = E(x)$, $E(y)$ for non-correlation.

(a) implies (b): but not the converse.

V *Non-linear Regression*: Correlation Ratio Methods of Contingency and Association.

VI *The Normal Curve of Error*—
(i) Binomial Distribution; Normal Curve as the limit of the Binomial.
(ii) The Principle of the Arithmetic Mean; Derivation of the Law of Error.
(iii) Hagen's Hypothesis. Deviation of the Law of Error.
(iv) Method of Least Squares and the Justice of the Method of Gauss's Normal Equations.

VII *Estimation*—
(i) Method of maximum likelihood. Consistent statistics, Sufficient statistics. Efficient statistics. Biased and Unbiased Estimates.
(ii) The Method of Moments.
Pearson's Curves.

VIII *Testing Hypothesis*—
(i) σ^2 Test.
(ii) Student's 't' test: Fisher's z transformation.

Tanjore, 15th September 1939.

Madras Commerce Report for the month of August 1939.

In view of subsequent events little or no useful purpose would be served by discussing at any length economic conditions during the month of August when commodity markets were completely overshadowed by the increasing gravity of the international political situation. The outbreak of war must inevitably cause a set back in ordinary commercial business and thereby defer economic trends from their normal course, but it is much too early to gauge the inevitable repercussions of this event on world trade. The main effect of the crisis which preceded the outbreak of war, was to create a more acute trade and consumer demand, to enlarge the volume of offerings on most markets and to stimulate speculative buying. As compared with the corresponding month of the previous year exports from the Province of Madras rose in August by 20·0 per cent and imports into the Province by 17·9 per cent. Reuters index of United Kingdom prices rose in the last twelve days of August by about 9½ points, but the rise in world commodities under the threat of war was smaller than might have been expected. The way perhaps is attributed to uncertainty as to the measure of Government control to which markets may be subjected. Broadly speaking, however, a rise in industrial raw materials seems, in view of the heart of British industrial activity, to be awaiting only upon a resumption of active recovery in the United States where business prospects appear to be brighter side. Local cotton markets were quiet but steady with little business passing in August. There was an improved demand for Indian mill cloth in the first half of the month, but subsequently a growing lack of confidence was in evidence resulting in a reluctance on the part of dealers to enter into future commitments. The off-take of Indian mill yarn continued unsatisfactorily. Prices of limited lines were not permitted during August, the chief decline being registered in light weights. There was little quotable change in prices of tanned sheep and tanned goat skins. There was little business passing in groundnuts and prices fluctuated within narrow limits. The paddy and rice markets were firm. The Calicut and Cochin coir yarn markets were weak and easier in the absence of demand. There was a somewhat better demand for copra and coconut oil and prices of these commodities improved a little. The Calicut ginger market firmed up in the course of the month as a result of Indian demand and closed steady. The pepper market was steady as a result of moderate Indian demand. Prices of sugar in the Madras market remained unchanged during the first fortnight of August, but subsequently there was a reaction owing to a fall in demand and heavy stocks, the market closing firm but unsteady owing to the uncertain international situation:

GROUNDNUT.

Prices for groundnut ruled steady with little business passing early in the month, subsequently the market turned dull and prices fluctuated within narrow limits. The average wholesale prices of standard varieties at the main producing centres were as follows:—

Per candy of 631 lb.

28th July 1939—Rs. 23-12-0 to Rs. 24-15-0.
31st August 1939—Rs. 24-10-0 to Rs. 26.

PADDY AND RICE.

The tone of the market was firm with normal demand in evidence and prices remained practically unchanged. The average wholesale prices of standard varieties at the main producing centres were as follows:—

Indian paddy per bag of 170 lb.

28th July 1939—Rs. 4-6-0 to Rs. 4-12-0.
31st August 1939—Rs. 4-9-0 to Rs. 4-14-0.

Indian rice per bag of 170 *lb.*

28th July 1939—Rs. 6-8-0 to Rs. 7-7-0.
31st August 1939—Rs. 6-9-0 to Rs. 7-7-0.

European rice—raw, Broken A-1 per bag of 220 *lb.*

31st July 1939—Rs. 3-4-0, Madras.
31st August 1939—Rs. 3-4-0, Madras.

Calcutta raw (Nagore) boiled per bag of 164 lb.

31st July 1939—Rs. 8, Madras.
31st August 1939—Rs. 8-2-0, Madras.

COCONUT PRODUCTS.

Owing to heavy arrivals and very little European and Indian demand, the market for Quilandy and Beypore coir yarns and Calicut unwashed yarns remained weak throughout the month. The Cochin coir yarn market was easier in the absence of European demand. The demand for copra and coconut oil was more satisfactory and prices for both commodities showed no upward tendency.

COTTON.

Tinnevelly.—Fresh arrivals from the interior were restricted and stocks are reported to have been retained by ryots in the hope of better prices. Typically slack season conditions prevailed during the month and business was on a very small scale, South Indian mills being almost the only buyers. The price of fair average quality Tinnevelly averaged about Rs. 174 per 784 lb.

Coimbatore.—Business was very slack in August with arrivals from the interior on a very restricted scale and stocks in the markets remaining unchanged. Coimbatore mills bought very little in view of the unsatisfactory yarn market whilst there was no demand from outside the district. Prices of good

average quality Cambodia ranged from about Rs. 2-13 at the commencement of the month to about Rs. 2-8-0 at the end of the month, whilst lower qualities ranged lower down to about Rs. 2-3 per 781 lb.

Sugar.

The Madras market opened under slightly better conditions as the stocks of Java sugar in the hands of weak holders being exhausted, the big wholesale dealers endeavoured to push prices up slowly but this was rendered owing to keen competition among dealers. Prices remained unchanged during the first fortnight owing to better arrivals from Bombay, but the second fortnight witnessed a reaction owing to a fall in demand. Heavy stocks in ports and consumers declines in prices to the Bombay market. Prices touched a new low level of Rs. 27-2-0 per bag for Java sugar. From the 25th of the month, the market showed signs of improvement as dealers began to purchase on account of the war-scare prices however, did not increase appreciably but only by a couple of annas per bag as some dealers took the opportunity of clearing their stocks. The market closed firm but unsteady owing to the uncertain conditions in Europe. The price of Nellikuppam sugar was Rs. 28 per bag of two cwt. at the end of August as compared with Rs. 28-6-0 at the end of July. Up-country markets closed strong with good demand owing to brisk buying by second-hand dealers on account of the war-scare.

Hides and Skins.

Tanned hides.—The August holidays in London upset business at the commencement of August and prices were not maintained during the month. The chief decline was registered in light weights, especially the inferior qualities, but heavy weights required for Army boots practically maintained their prices. Quotations at the end of August were as follows:—

Prices 8½ lb. Ctf.: Prime 8½ lb. 1/3½
Prices 10/12 lb. 1/8½; Cows 7½ lb. 1/4½

Tanned goat skins.—Orders were taken during August but not with any steadiness, or confidence. Several of the London buyers were willing to place orders for substantial quantities of heavy weights, but the question of price proved a stumbling block. It was expected in Madras that at the public auction which was due to take place on the 24th August, prices for goat skins would be firm to a slight increase, as the auctions is usually one of the best of the year's active. London buyers had orders on hand but at low prices and there was an absence of confidence in the future due mainly to the international situation. Light weights found satisfactory sales throughout the month, especially in the lower selections. The auction was postponed for three days and the critical situation which had reached its climax by the end of the month caused a further postponement of one week. Business slackened off about the 20th August and very little was done between then and the end of the month. Spot goods in London found a ready sale in both goat and sheep.

Tanned sheep skins.—The market was slightly erratic but a small business in the usual direct shipment selections was put through with no quotable change in prices.

Shipments of hides and skins during August were as follows:—

GOVERNMENT OF INDIA.

LEGISLATIVE ASSEMBLY DEPARTMENT.

The following Bill [1] was introduced in the Legislative Assembly on the 15th September 1939 :—

L.A. BILL No. 45 OF 1939.

A Bill to declare that properties of a Muslim dying intestate and without any heir devolve upon the Muslim community

WHEREAS doubts have arisen whether properties of an intestate owner dying without any heir should devolve upon the Muslim community or be escheated to the Crown;

[1] The governor-General has been pleased to accord the previous sanction required by section 67 (1) (a) of the Government of India Act.

AND WHEREAS it is expedient to resolve such doubt; It is hereby enacted as follows :—

Short title, application and extent.

1. (1) This Act may be called the Muslim Intestate Succession Act, 1935.

(2) It shall apply to the estate both movable and immovable of a Muslim subject to the Muslim law of succession dying intestate without any heir, and shall extend to the whole of British India.

Devolution of intestate estate.

2. Notwithstanding any law or custom to the contrary, the estate of a Muslim subject to the Muslim law of succession dying intestate without any heir shall devolve on the Muslim community and shall not escheat to the Crown.

STATEMENT OF OBJECTS AND REASONS.

This Bill is intended to provide that the estate of an intestate Muslim subject to the Muslim law dying without any heir shall devolve on the Muslim community in accordance with the *Shareat* in preference to its escheating to the Crown.

This rule of common law is inapplicable to Muslims who are subject to their own law which provides for such a contingency.

The following Bill was introduced in the Legislative Assembly on the 13th September 1939:—

L.A. BILL No. 46 OF 1939.

A Bill further to amend the Indian Penal Code.

WHEREAS it is necessary and expedient further to amend the Criminal Law of kidnapping and abduction in India; It is hereby enacted as follows:—

Short title, extent and commencement.

1. (1) This Act may be called the Indian Penal Code (Amendment) Act, 193 .

(2) It shall apply to whole of British India

(3) It shall come into force on

Amendment of section 361, Act XLV of 1860.

XLV of 1860.

2. In section 361 of the Indian Penal Code, for the words "under fourteen years of age if a male, or under sixteen years of age if a female," the words "under eighteen years of age" shall be substituted

---

STATEMENT OF OBJECTS AND REASONS.

The object of this amendment is to raise the age limit of a person, female as well as a male, in connexion with the offence of kidnapping and abduction to under eighteen years, instead of the existing limit of under sixteen years and fourteen years in the case of a female and a male child respectively

This reform is overdue. Experience shows that advantage is being taken of the weak intellect, immature judgment of minors, both male and female and their present day fashion and features, to secure them for immoral and unlawful purposes The age of majority, according to the provisions of the Majority Act of 1875, is eighteen years, and twenty-one, if the person is under a guardian appointed by courts. The Indian Penal Code has already been amended in eighteen sections. In section 366-A Indian Penal Code, the age of a minor girl for the purpose of that section has been raised to under eighteen years Nowadays kidnapping and abduction of immature and less intelligent boys and girls has much increased Therefore there is no reason to make any distinction between the case of a male or a female child, as was formerly done,

In section 366-B, Indian Penal Code, the age-limit in the case of a girl has been raised to under eighteen years. In sections 372 and 373 Indian Penal Code, which also deal with the moral ethics of persons, the age-limit has been raised to under eighteen years. Lately some High Courts and recently the Judicial Commissioner of Sind in the "Muhini Alam Romance Case," have recognized the urgent need of this amendment

The following Bill was introduced in the Legislative Assembly on the 15th September 1939.—

L.A. BILL No. 47 OF 1939.

A Bill further to amend the Indian Merchant Shipping Act, 1923.

XXI of 1923. Whereas it is expedient further to amend the Indian Merchant Shipping Act, 1923, for a certain purpose; It is hereby enacted as follows:—

Short title. 1. This Act may be called the Indian Merchant Shipping (Amendment) Act, 1939.

Amendment of sec. 133, Act XXI of 1923. XXI of 1923. 2. In sub-section (*f*) of section 133 of the Indian Merchant Shipping Act, 1923—

(*a*) for the words "sixteen and ninety-six" the words "eighteen and one hundred and eight" shall be substituted,

(*b*) for the word "available" the words "allotted and marked separately" shall be substituted; and

(*c*) for the word "pilgrims" the words "each pilgrim" shall be substituted.

STATEMENT OF OBJECTS AND REASONS.

Section 133 (*f*) of the Indian Merchant Shipping Act, 1923, provides for a space of 16 superficial feet and 36 cubic feet, respectively, for pilgrims carried by pilgrim ships. In allotting the space, no separate allotment is made or marked for each pilgrim and the count is taken, in calculating the number of pilgrims, of the entire superficial space in-between decks, including nooks and corners and other spaces which are not capable of any use whatever. Besides, the space allotted is inadequate. It is proposed therefore, to amend the aforesaid section to remove the inconvenience caused to the pilgrims due to inadequate space and lack of individual allotment.

The following Bill was introduced in the Legislative Assembly on the 15th September 1939 :—

LA BILL No 48 OF 1939.

A Bill further to amend the Press and Registration of Books Act, 1867.

WHEREAS it is expedient further to amend the Press and Registration of Books Act, 1867; It is hereby enacted as follows :— XXV of 1867.

1. (1) This Act may be called the Press and Registration of Books (Amendment) Act, 19 . Short title, application and commencement.

(2) It shall apply to the whole of British India.

(3) It shall come into force on

2. To section 5 of the Press and Registration of Books Act, 1867 the following further proviso shall be added, namely — XXV of 1867. Amendment of section 5, Act XXV of 1867.

"Provided further that no person who has been convicted of an offence involving moral turpitude or who has not an educational qualification of having passed at least a matriculation examination of any University in India shall be permitted to make the declaration prescribed by this section nor shall any such person edit a newspaper."

STATEMENT OF OBJECTS AND REASONS.

It is necessary to improve the tone of the press and to have better material to edit the newspapers. It cannot be denied that a section of the press is run by persons of not very desirable culture and calibre and it is high time to control such presses by providing some rules of conduct and educational qualifications. Many mushroom presses are started in India merely to vilify their opponents and create bad blood. Under the present law any person can step in a Magistrate's office make a simple declaration and invest himself with a power over the destinies of people. Lately the resolution passed by the conference of the Provincial Home Ministers under the presidency of the Home Member of the Government of India has also recognized the necessity of a concerted action by the Government to control propaganda of a communal nature which is generally attributed to the inferior section of the press.

Registration to be in respect of particular goods.

5. (*1*) A trade mark may be registered only in respect of particular goods or classes of goods.

(*2*) Any question arising as to the class within which any goods fall shall be determined by the Registrar, whose decision in the matter shall be final.

Distinctiveness required for registration.

6. (*1*) A trade mark shall not be registered unless it contains or consists of at least one of the following essential particulars, namely:—

(*a*) the name of a company, individual, or firm, represented in a special or particular manner;

(*b*) the signature of the applicant for registration or some predecessor in his business;

(*c*) one or more invented words,

(*d*) one or more words having no direct reference to the character or quality of the goods, and not being, according to its ordinary significance, a geographical name or surname or the name of a sect, caste or tribe in India;

(*e*) any other distinctive mark, provided that a name, signature or any word, other than such as fall within the descriptions in the above clauses, shall not be registrable except upon evidence of its distinctiveness.

(4) For the purposes of this section the expression "distinctive" means adapted, in relation to the goods in respect of which a trade mark is proposed to be registered, to distinguish goods with which the proprietor of the trade mark is or may be connected in the course of trade from goods in the case of which no such connection subsists, either generally or where the trade mark is proposed to be registered subject to limitations, in relation to use within the extent of the registration.

(5) In determining whether a trade mark is adapted to distinguish as aforesaid, the tribunal may have regard to the extent to which—

(a) the trade mark is inherently so adapted to distinguish, and

(b) by reason of the use of the trade mark or of any other circumstances, the trade mark is in fact so adapted to distinguish

Provided that in the case of a trade mark which has been continuously used (either by the applicant for registration or by some predecessor in his business, and either in its original form or with additions or alterations not substantially affecting its identity) in relation to the same goods as those in relation to which registration is applied for during a period from a date prior to the 25th day of February 1937 to the date of application for registration, the Registrar shall not refuse registration by reason only of the fact that the trade mark is not adapted to distinguish as aforesaid and may accept evidence of acquired distinctiveness as entitling the trade mark to registration.

Limitation as to colour.

7. (1) A trade mark may be limited wholly or in part to one or more specified colours, and any such limitation shall be taken into consideration by any tribunal having to decide on the distinctive character of the trade mark.

(2) So far as a trade mark is registered without limitation of colour it shall be deemed to be registered for all colours.

Prohibition of registration of certain matter.

8. No trade mark nor part of a trade mark shall be registered which consists of, or contains, any scandalous design, or any matter the use of which would be—

(b) likely to hurt the religious susceptibilities of any class of His Majesty's subjects; or

(c) contrary to any law for the time being in force or to morality.

Use of names of chemical elements barred.

9. No word which is the commonly used and accepted name of any single chemical element or single chemical compound (as distinguished from a mixture) shall be registered as a trade mark in respect of a chemical substance or preparation, and any such registration shall, notwithstanding anything in section 24, be deemed for the purposes of section 46 to be an entry made in the register without sufficient cause or an entry wrongly remaining on the register, as the circumstances may require:

Provided that this section shall not apply to a word which is used to denote only a brand of make of the element or compound as made by the proprietor or a registered user of the trade mark, as distinguished from the element or compound as made by others, and in association with a suitable name or description open to the public use.

Prohibition of registration of identical trade mark.

10. (1) Save as provided in sub-section (2), no trade mark shall be registered in respect of any goods or description of goods which is identical with a trade mark belonging to a different proprietor and already on the register in respect of the same goods or description of other goods, or which so nearly resembles such trade mark as to be likely to deceive or cause confusion.

(3) In case of honest concurrent use or of other special circumstances which, in the opinion of the Registrar makes it proper so to do, he may permit the registration by more than one proprietor of trade marks which are identical or nearly resemble each other in respect of the same goods or description of goods, subject to such conditions and limitations, if any, as the Registrar may think fit to impose.

(4) Where separate applications are made by different persons to be registered as proprietors respectively of trade marks which are identical or nearly resemble each other, in respect of the same goods or description of goods, the Registrar may refuse to register any of them until their rights have been determined by a competent Court.

Registration of parts of trade marks and of trade marks as a series.

11. (1) Where the proprietor of a trade mark claims to be entitled to the exclusive use of any part thereof separately, he may apply to register the whole and the part as separate trade marks.

(2) Each such separate trade mark shall satisfy all the conditions applying to, and have all the incidents of, an independent trade mark.

(3) Where a person claiming to be the proprietor of several trade marks in respect of the same goods or description of goods which, while resembling each other in the material particulars thereof, yet differ in respect of—

(a) statements of the goods in relation to which they are respectively used or proposed to be used, or

(b) statements of number, price, quality, or names of places; or

(c) other matter of an indistinctive character which does not substantially affect the identity of the trade mark; or

(d) colour,

seeks to register those trade marks, they may be registered as a series in one registration.

Associated trade marks.

12. (1) Where a trade mark which is registered, or is the subject of an application for registration, in respect of any goods is identical with another trade mark which is registered, or is the subject of an application for registration, in the name of the same proprietor in respect of the same goods or description of goods, or so nearly resembles it as to be likely to deceive or cause confusion if used by a person other than the proprietor, the Registrar may at any time require that the trade marks shall be entered on the register as associated trade marks.

(2) Where a trade mark and any part thereof are, in accordance with the provisions of sub-section (1) of section 11, registered as separate trade marks in the name of the same proprietor, they shall be deemed to be, and shall be registered as, associated trade marks.

(3) All trade marks registered in accordance with the provisions of sub-section (3) of section 11 as a series in one registration shall be deemed to be and shall be registered as, associated trade marks.

(4) On application made in the prescribed manner by the registered proprietor of two or more trade marks registered as associated trade marks, the Registrar may dissolve the association as respects any of them if he is satisfied that there would be no likelihood of deception or confusion being caused if that trade mark were used by any other person in relation to any of the goods in respect of which it is registered, and may amend the register accordingly.

Registration subject to disclaimer.

13. If a trade mark contains—

(a) any part not separately registered as a trade mark in the name of the proprietor, or for the separate registration of which no application has been made, or

(b) any matter common to the trade, or otherwise of an indistinctive character,

the Tribunal, in deciding whether the trade mark shall be entered or shall remain on the register, may require, as a condition to its being on the register, that the proprietor shall either disclaim any right to the exclusive use of such part or of all or any portion of such matter, as the case may be, to the exclusive use of which the

tribunal holds him not to be entitled, or make such other disclaimer as the tribunal may consider necessary for the purpose of defining the rights of the proprietor under the registration.

Provided that no disclaimer shall affect any rights of the proprietor of a trade mark except such as arise out of the registration of the trade mark in respect of which the disclaimer is made.

CHAPTER III

Procedure for, and duration of, Registration.

Application for registration.

14 (1) Any person claiming to be the proprietor of a trade mark used or proposed to be used by him who is desirous of registering it shall apply in writing to the Registrar in the prescribed manner, and subject to the provisions of this Act, the Registrar may refuse the application or may accept it absolutely or subject to such amendments, modifications, conditions or limitations, if any, as he may think fit.

(2) In the case of a refusal or conditional acceptance the Registrar shall state in writing the grounds of his decision.

(3) The tribunal may at any time, whether before or after acceptance, correct any error in or in connexion with the application, or may permit the applicant to amend his application upon such terms as it may think fit.

Opposition to registration.

15 (1) When an application for registration of a trade mark has been accepted whether absolutely or subject to conditions or limitations the Registrar shall, as soon as may be after acceptance cause the application as accepted together with the conditions and limitations, if any, subject to which it has been accepted, to be advertised in the prescribed manner:

Provided that the Registrar may cause an application to be advertised before acceptance if it relates to a trade mark to which clause (e) of sub-section (1) of section 8 applies, or in any other case where it appears to him that it is expedient by reason of any exceptional circumstances so to do, and where an application has been so advertised the Registrar may, if he thinks fit, advertise it again when it has been accepted, but shall not be bound so to do.

(2) Any person may, within the prescribed time from the date of the advertisement of an application, give notice in writing in the prescribed manner to the Registrar of opposition to the registration.

(3) The Registrar shall serve in the prescribed manner a copy of the notice on the applicant and within the prescribed time the applicant shall send to the Registrar, in the prescribed manner, a counter-statement of the grounds on which he relies for his application, and, if he does not do so, he shall be deemed to have abandoned his application.

(4) If the applicant sends such counter-statement, the Registrar shall serve in the prescribed manner a copy thereof on the persons giving notice of opposition, and shall, after hearing the parties if so required and considering the evidence, decide whether, and subject to what conditions or limitations, if any, registration is to be permitted.

(5) If a person giving notice of opposition or an applicant sending a counter-statement after receipt of a copy of such notice, or an appellant against any order of the Registrar under section 14 of this section, neither resides nor carries on business in British India, the tribunal may require him to give security for costs of the proceedings before it, and in default of such security being duly given may treat the opposition or application or appeal, as the case may be, as abandoned.

Registration.

16 (1) When an application for registration of a trade mark has been accepted and either has not been opposed and the time for notice of opposition has expired, or having been opposed, has been decided in favour of the applicant the Registrar shall, unless the application has been accepted in error, or unless the Central Government otherwise directs, register the said trade mark, and the

trade mark, when registered, shall be registered as of the date of the making of the said application, and that date shall, subject to any directions made under section 82 applicable to such trade mark, be deemed for the purposes of this Act to be the date of registration.

(5) On the registration of a trade mark the Registrar shall issue to the applicant a certificate in the prescribed form of the registration thereof sealed with the seal of the Patent Office.

(6) Where registration of a trade mark is not completed within twelve months from the date of the application by reason of default on the part of the applicant, the Registrar may, after giving notice to the applicant in the prescribed manner, treat the application as abandoned unless it is completed within the time specified in that behalf in the notice.

Jointly owned trade marks.

17. (1) Save as provided in sub-section (2), nothing in this Act shall authorise the registration of two or more persons who use a trade mark independently, or propose so to use it, as joint proprietors thereof.

(2) Where the relations between two or more persons interested in a trade mark are such that no one of them is entitled as between himself and the other or others of them to use it except—

(a) on behalf of both or all of them, or

(b) in relation to an article with which both or all of them are connected in the course of trade,

those persons may be registered as joint proprietors of the trade mark, and this Act shall have effect in relation to any rights to the use of the trade mark vested in those persons as if those rights had been vested in a single person.

Duration and renewal of registration.

18. (1) The registration of a trade mark shall be for a period of ten years, but may be renewed from time to time in accordance with the provisions of this section.

(2) The Registrar shall, on application made by the registered proprietor of a trade mark in the prescribed manner and within the prescribed period, renew the registration of the trade mark for a period of fifteen years from the date of expiration of the original registration or of the last renewal of registration, as the case may be (which date is in this section referred to as "the expiration of the last registration").

(3) At the prescribed time before the expiration of the last registration of a trade mark, the Registrar shall send notice in the prescribed manner to the registered proprietor of the date of expiration and the conditions as to payment of fees and otherwise upon which a renewal of registration may be obtained, and if at the expiration of the time prescribed in that behalf those conditions have not been duly complied with the Registrar may remove the trade mark from the register, subject to such conditions (if any) as to its restoration to the register as may be prescribed.

Effect of removal from register for failure to pay fee for renewal.

19. Where a trade mark has been removed from the register for failure to pay the fee for renewal, it shall nevertheless, for the purpose of any application for the registration of another trade mark during one year next after the date of the removal, be deemed to be a trade mark already on the register, unless the tribunal is satisfied either—

(a) that there has been no *bona fide* trade use of the trade mark which has been removed during the two years immediately preceding its removal, or

(b) that no deception or confusion would be likely to arise from the use of the trade mark which is the subject of the application for registration by reason of any previous use of the trade mark which has been removed.

CHAPTER IV.

Effect of Registration.

No action for infringement of unregistered trade mark.

20. (1) No person shall be entitled to institute any proceeding to prevent, or to recover damages for, the infringement of an unregistered trade mark unless such trade mark has been continuously in use since the 24th day of February 1938 and unless an application for its registration, made within five years from the commencement of this Act, has been refused, and the Registrar shall, on application in the prescribed manner, grant a certificate that such application has been refused.

(2) Nothing in this Act shall be deemed to affect rights of action against any person for passing off goods as the goods of another person or the remedies in respect thereof.

Right conferred by registration.

21. Subject to the provisions of sections 22, 25 and 26, the registration of a person in the register as proprietor of a trade mark in respect of any goods shall, if valid, give to that person the exclusive right to the use of the trade mark in relation to those goods and, without prejudice to the generality of the foregoing provision, that right shall be deemed to be infringed by any person who, not being the proprietor of the trade mark or a registered user thereof using by way of the permitted use, uses a mark identical with it or so nearly resembling it as to be likely to deceive or cause confusion, in the course of trade, in relation to any goods in respect of which it is registered, and in such manner as to render the use of the mark likely to be taken either—

(a) as being use as a trade mark, or

(b) to import a reference to some person having the right either as a proprietor or as registered user to use the trade mark or to goods with which such a person as aforesaid is connected in the course of trade

No infringement in certain circumstances.

22. (1) The right to the use of a trade mark given under section 21 by registration shall be subject to any conditions or limitations entered on the register, and shall not be deemed to be infringed by the use of any such mark as aforesaid in any mode, in relation to goods to be sold or otherwise traded in in any place, or in relation to goods to be exported to any market, or in any other circumstances, to which, having regard to any such limitations, the registration does not extend.

(2) The said right to the use of a trade mark shall not be deemed to be infringed by the use of any such mark as aforesaid by any person—

(a) in relation to goods connected in the course of trade with the proprietor or a registered user of the trade mark if, as to those goods or a bulk of which they form part, the proprietor or the registered user conforming to the permitted use has applied the trade mark and has not subsequently removed or obliterated it, or has at any time expressly or impliedly consented to the use of the trade mark, or

(b) in relation to goods adapted to form part of, or to be accessory to, other goods in relation to which the trade mark has been used without infringement of the right given as aforesaid or might for the time being be so used, if the use of the mark is reasonably necessary in order to indicate that the goods are so adapted and neither the purpose nor the effect of the use of the mark is to indicate otherwise than in accordance with the fact a connexion in the course of trade between any person and the goods

(3) The use of a registered trade mark, being one of two or more registered trade marks which are identical or nearly resemble each other, in exercise of the right to the use of that trade mark given by registration as aforesaid, shall not be deemed to be an infringement of the right so given to the use of any other of those trade marks.

Registration to be prima facie evidence of validity.

23. In all legal proceedings relating to a registered trade mark, the fact that a person is registered as proprietor thereof shall be *prima facie* evidence of the validity of the original registration of the trade mark and of all subsequent assignments and transmissions thereof.

Registration to be conclusive as to validity after certain period.

24. In all legal proceedings relating to a registered trade mark, the original registration of the trade mark shall after the expiration of ten years from the date of such original registration be taken to be valid in all respects unless such registration was obtained by fraud, or unless the trade mark offends against the provisions of section 8.

Saving for vested rights.

25. Nothing in this Act shall entitle the proprietor or a registered user of a registered trade mark to interfere with or restrain the use by any person of a trade mark identical with or nearly resembling it in relation to goods in relation to which that person or some predecessor in his business has continuously used that trade mark from a date prior—

(*a*) to the use of the first-mentioned trade mark in relation to those goods by the proprietor or some predecessor in his business, or

(*b*) to the registration of the first-mentioned trade mark in respect of those goods in the name of the proprietor or some predecessor in his business,

whichever is the earlier, or to object (on such use being proved) to registration of that identical or nearly resembling trade mark in respect of those goods under sub-section (*b*) of section 10.

Saving for use of name, address, or description of goods.

26. No registration of a trade mark shall interfere with any *bona fide* use by a person of his own name or that of his place of business, or of the name, or the name of the place of business, of any of his predecessors in business, or the use by any person of any *bona fide* description of the character or quality of his goods, not being a description that would be likely to be taken as importing any such reference as is mentioned in clause (*b*) of section 21 or in clause (*b*) of section 87.

Words used as name or description of an article or substance.

27. (*1*) The registration of a trade mark shall not be deemed to have become invalid by reason only of any use after the date of the registration of any words which the trade mark contains or of which it consists as the name or description of an article or substance:

Provided that, if it is proved either—

(*a*) that there is a well-known and established use of the said words as the name or description of the article or substance by a person or persons carrying on a trade thereon, not being use in relation to goods connected in the course of trade with the proprietor or a registered user of the trade mark or (in the case of a certification trade mark) goods certified by the proprietor, or

(*b*) that the article or substance has been manufactured under a patent, that a period of two years or more after the cesser of the patent has elapsed, and that the said words are the only practicable name or description of the article or substance,—

the provisions of sub-section (*2*) shall apply.

(*2*) Where the facts mentioned in clause (*a*) or clause (*b*) of the proviso to sub-section (*1*) are proved with respect to any words, then—

(*a*) for the purposes of any proceedings under section 45—

(*i*) if the trade mark consists solely of such words, the registration of the trade mark, so far as regards registration in respect of the article or substance in question or of any goods of the same description, shall be deemed to be an entry wrongly remaining on the register;

(ii) if the trade mark contains such words and other matter, the tribunal, in deciding whether the trade mark shall remain on the register, so far as regards registration in respect of the article or substance in question and of any goods of the same description, may, in case of a decision in favour of its remaining on the register, require as a condition thereof that the proprietor shall disclaim any right to the exclusive use in relation to that article or substance and any goods of the same description of such words, provided that no disclaimer shall affect any rights of the proprietor of a trade mark except such as arise out of the registration of the trade mark in respect of which the disclaimer is made;

(b) for the purposes of any other legal proceedings relating to the trade mark,—

(i) if the trade mark consists solely of such words, all rights of the proprietor under this Act or any other law to the exclusive use of the trade mark in relation to the article or substance in question or to any goods of the same description, or

(ii) if the trade mark contains such words and other matter, all such rights of the proprietor to the exclusive use of such words,

in such relation as aforesaid, shall be deemed to have ceased on the date at which the use mentioned in clause (a) of the proviso to sub-section (1) first became well-known and established, or at the expiration of the period of two years mentioned in clause (b) of the said proviso.

CHAPTER V.

Assignment and Transmission.

Power of registered proprietor to assign and give receipts.

28. The person for the time being entered in the register as proprietor of a trade mark shall, subject to the provisions of this Act and to any rights appearing from the register to be vested in any other person, have power to assign the trade mark and to give effectual receipts for any consideration for such assignment.

Assignability of registered trade marks.

29. Notwithstanding anything in any other law to the contrary a registered trade mark shall, subject to the provisions of this Chapter, be assignable and transmissible whether in connection with the goodwill of a business or not, and in respect either of all of the goods in respect of which it is registered or of some only of those goods.

Assignability of unregistered trade marks.

30. An unregistered trade mark shall be assignable and transmissible in the same manner as a registered trade mark if (but not otherwise)—

(a) at the time of assignment or transmission of the unregistered trade mark it is used in the same business as a registered trade mark, and

(b) the registered trade mark is assigned or transmitted at the same time and to the same person as the unregistered trade mark, and

(c) the unregistered trade mark relates only to goods in respect of which the registered trade mark is assigned or transmitted.

Restriction on assignment or transmission where multiple users for rights would be created.

31. (1) Notwithstanding anything in sections 29 and 30, a trade mark shall not be assignable or transmissible in a case in which as a result of the assignment or transmission there would in the circumstances obtain, whether under this Act or any other law, exclusive rights in more than one of the persons concerned to the use, in relation to the same goods or description of goods, of trade marks nearly resembling each other or of identical trade marks, if, having regard to the similarity of the goods and of the trade marks, the use of the trade marks in exercise of those rights would be likely to deceive or cause confusion.

Provided that an assignment or transmission shall not be deemed to be invalid under this sub-section if the exclusive rights subsisting as a result thereof in the persons concerned respectively are, having regard to limitations imposed thereon, such as not to be exercisable by two or more of those persons in relation to goods to be sold, or otherwise traded in, within British India (otherwise than for export therefrom), or in relation to goods to be exported to the same market outside British India.

(3) The proprietor of a registered trade mark who proposes to assign it may submit to the Registrar in the prescribed manner a statement of case setting out the circumstances and the Registrar may issue to him a certificate stating whether, having regard to the similarity of the goods and of the trade marks referred to in the case, the proposed assignment would or would not be invalid under sub-section (2), and a certificate so issued shall, subject to appeal and unless it is shown that the certificate was obtained by fraud or misrepresentation, be conclusive as to the validity or invalidity under sub-section (2) of the assignment in so far as such validity or invalidity depends upon the facts set out in the case, but, as regards a certificate in favour of validity, only if application for the registration under section 25 of the title of the person becoming entitled is made within six months from the date on which the certificate is issued.

Restrictions on assignment, or transmission when exclusive rights would be vested in different parts of British India.

32. Notwithstanding anything in sections 29 and 30, a trade mark shall not be assignable or transmissible in a case in which as a result of the assignment or transmission there would in the circumstances subsist, whether under this Act or any other law, an exclusive right in one of the persons to the use of the trade mark limited to use in relation to goods to be sold or otherwise traded in in any place in British India and an exclusive right in another of those persons to the use of a trade mark nearly resembling the first-mentioned trade mark or of an identical trade mark in relation to the same goods or description of goods limited to use in relation to goods to be sold, or otherwise traded in, in any other place in British India:

Provided that in any such case, on application in the prescribed manner by the proprietor of a trade mark who proposes to assign it, or by a person who claims that a registered trade mark has been transmitted to him or to a predecessor in title of his since the commencement of this Act the Registrar, if he is satisfied that in all the circumstances the use of the trade mark in exercise of the said rights would not be contrary to the public interest, may approve the assignment or transmission and an assignment or transmission so approved shall not unless it is shown that the approval was obtained by fraud or misrepresentation be deemed to be invalid under this section or section 31 if application for the registration under section 25 of the title of the person becoming entitled is made within six months from the date on which the approval is given or, in the case of a transmission, was made before that date.

Conditions for assignment otherwise than in connection with the goodwill of a business.

33. Where an assignment in respect of any goods of a trade mark which is at the time of the assignment used in a business in those goods, is made after the commencement of this Act otherwise than in connection with the goodwill of that business, the assignment shall not take effect unless the assignee, not later than the expiration of six months from the date on which the assignment is made or within such extended period, if any, as the Registrar may allow, applies to the Registrar for directions with respect to the advertisement of the assignment and advertises it in such form and manner and within such period as the Registrar may direct.

Conditions for assignment and transmission of certification trade marks and associated trade marks.

34. (1) A certification trade mark shall not be assignable or transmissible otherwise than with the consent of the Central Government, for which application shall be made in writing in the prescribed manner through the Registrar.

(2) Associated trade marks shall be assignable and transmissible only as a whole and not separately.

Registration of assignments and transmissions.

35. (1) Where a person becomes entitled by assignment or transmission to a registered trade mark, he shall apply in the prescribed manner to the Registrar to register his title, and the Registrar shall on receipt of the applicant's and on proof of title to his satisfaction, register him as the proprietor of the trade mark in respect of the goods in respect of which the assignment or transmission has effect, and shall cause particulars of the assignment or transmission to be entered on the register.

(2) Except for the purposes of an appeal against a decision of the Registrar under sub-section (1) or of an application under section 46, a document or instrument in respect of which no entry has been made in the register in accordance with sub-section (1) shall not be admitted in evidence before any tribunal in proof of the title to a trade mark unless the tribunal otherwise directs.

CHAPTER VI

Use of Trade Marks and Registered Users.

Proposed use of trade mark by company to be disregarded.

36. (1) No application for the registration of a trade mark in respect of any goods shall be refused, nor shall permission for such registration be withheld, on the ground only that it appears that the applicant does not use or propose to use the trade mark, if the Registrar is satisfied that a company is about to be formed and registered under the Indian Companies Act, 1913, and that the applicant intends to assign the trade mark to that company with a view to the use thereof in relation to those goods by the company.

of 1913.

(2) The tribunal may, in a case to which sub-section (1) applies, require the applicant to give security for the costs of any proceedings relative to any opposition or appeal, and in default of such security being duly given may treat the application as abandoned.

(3) Where in a case to which sub-section (1) applies, a trade mark is registered in the name of an applicant who takes an intention to assign to a company, then, unless within such period as may be prescribed, or within such further period not exceeding six months as the Registrar may, on application being made to him in the prescribed manner, allow, the company has been registered as the proprietor of the trade mark in respect of those goods, the registration shall cease to have effect in respect thereof at the expiration of that period, and the Registrar shall amend the register accordingly.

Removal from register and prohibition of use in case of trade mark registered on ground of user.

37. (1) Subject to the provisions of section 38, a registered trade mark may be taken off the register in respect of any of the goods in respect of which it is registered on application in the prescribed manner by any person aggrieved to a High Court or to the Registrar on the ground either—

(a) that the trade mark was registered without any *bona fide* intention on the part of the applicant for registration that it should be used in relation to those goods by him or, in a case to which the provisions of section 36 apply, by the company concerned, and that there has in fact been no *bona fide* use of the trade mark in relation to those goods by any proprietor thereof for the time being up to the date one month before the date of the application; or

(b) that up to the date one month before the date of the application, a continuous period of five years or longer elapsed during which the trade mark was registered and during which there was no *bona fide* use thereof in relation to those goods by any proprietor thereof for the time being:

Provided that, except where the applicant has been permitted under sub-section (2) of section 10 to register an identical or nearly resembling trade mark in respect of the goods in question or where the tribunal is of opinion that he might properly be permitted so to register such a trade mark, the tribunal may refuse an application made under clause (a) or clause (b) in relation to any goods, if it is shown that there has been, before the relevant date or during the

relevant period as the case may be, bona fide use of the trade mark by any proprietor thereof for the time being in relation to goods of the same description, being goods in respect of which the trade mark is registered.

(2) Where in relation to any goods in respect of which a trade mark is registered—

(a) the circumstances referred to in clause (b) of sub-section (1) are shown to exist so far as regards non-use of the trade mark in relation to goods to be sold, or otherwise traded in, in a particular place in British India (otherwise than for export from British India), or in relation to goods to be exported to a particular market outside British India, and

(b) a person has been permitted under sub-section (2) of section 10 to register an identical or nearly resembling trade mark in respect of those goods under a registration extending to use in relation to goods to be so sold, or otherwise traded in, or in relation to goods to be so exported, or the Tribunal is of opinion that he might properly be permitted so to register such a trade mark,

on application by that person in the prescribed manner to a High Court or to the Registrar, the Tribunal may impose on the registration of the first-mentioned trade mark such limitations as it thinks proper for securing that that registration shall cease to extend to such use.

(3) An applicant shall not be entitled to rely for the purpose of clause (2) of sub-section (1) or of sub-section (2) on any non-use of a trade mark which is shown to have been due to special circumstances in the trade and not to any intention not to use or to abandon the trade mark in relation to the goods to which the application relates.

Defensive registration of well-known trade marks.

38. (1) Where a trade mark consisting of any invented word has become well-known in respect to any goods in relation to which it is registered and has been used, that the use thereof in relation to other goods would be likely to be taken as indicating a connection in the course of trade between those goods and a person entitled to use the trade mark in relation to the first-mentioned goods then, notwithstanding that the proprietor registered in respect of the first-mentioned goods does not use or propose to use the trade mark in relation to those other goods and notwithstanding anything in section 37, the trade mark may on application in the prescribed manner by such proprietor be registered in his name in respect of those other goods as a defensive trade mark and, while so registered, shall not be liable to be taken off the register in respect of those goods under the said section.

(2) The registered proprietor of a trade mark may apply for the registration thereof in respect of any goods as a defensive trade mark notwithstanding that it is already registered in his name in respect of those goods otherwise than as a defensive trade mark, or may apply for the registration thereof in respect of any goods otherwise than as a defensive trade mark notwithstanding that it is already registered in his name in respect of those goods as a defensive trade mark, in lieu in each case of the existing registration.

(3) A trade mark registered as a defensive trade mark and that trade mark as otherwise registered in the name of the same proprietor shall, notwithstanding that the respective registrations are in respect of different goods, be deemed to be, and shall be registered as, associated trade marks.

(4) On application in the prescribed manner by any person aggrieved to a High Court or to the Registrar, the registration of a trade mark as a defensive trade mark may be cancelled on the ground that the requirements of sub-section (1) are no longer satisfied in respect of any goods in relation to which the trade mark is registered in the name of the same proprietor otherwise than as a defensive trade mark or may be cancelled as respects any goods in relation to which it is registered as a defensive trade mark on the

ground that there is no longer any likelihood that the use of the trade mark in relation to those goods would be taken as giving the indication mentioned in sub-section (2).

(5) The Registrar may at any time cancel the registration as a defensive trade mark of a trade mark of which there is no longer any registration in the name of the same proprietor otherwise than as a defensive trade mark.

(6) Except as otherwise expressly provided in this section, the provisions of this Act shall apply in respect of the registration of trade marks as defensive trade marks and of trade marks so registered as they apply in other cases.

Registered users.

30. (1) A person other than the proprietor of a trade mark may be registered as a registered user thereof in respect of all or any of the goods in respect of which it is registered (otherwise than as a defensive trade mark) and either with or without conditions or restrictions.

(2) The permitted use of a trade mark shall be deemed to be use by the proprietor thereof, and shall be deemed not to be use by a person other than the proprietor for any purpose for which such use is material under this Act or any other law.

Power of registered user to join proceedings against infringement.

40. (1) Subject to any agreement subsisting between the parties, a registered user of a trade mark shall be entitled to call upon the proprietor thereof to take proceedings to prevent infringement thereof, and if the proprietor refuses or neglects to do so within three months after being so called upon, the registered user may institute proceedings for infringement in his own name as if he were the proprietor, making the proprietor a defendant.

(2) Notwithstanding anything contained in any other law, a proprietor so added as defendant shall not be liable for any costs unless he enters an appearance and takes part in the proceedings.

Application for registration as registered user.

41. (1) Where it is proposed that a person should be registered as a registered user of a trade mark, the proprietor and the proposed registered user shall make application in writing to the Registrar in the prescribed manner accompanied by an affidavit made by the proprietor, or by some person authorised to the satisfaction of the Registrar to act on his behalf,—

(a) giving particulars of the relationship, existing or proposed, between the proprietor and the proposed registered user, including particulars showing the degree of control by the proprietor over the permitted use which their relationship will confer and whether it is a term of their relationship that the proposed registered user shall be the sole registered user or that there shall be any other restriction as to persons for whose registration as registered users application may be made;

(b) stating the goods in respect of which registration is proposed;

(c) stating any conditions or restrictions proposed with respect to the characteristics of the goods, to the mode or place of permitted use or to any other matter;

(d) stating whether the permitted use is to be for a period or without limit of period, and, if for a period, the duration thereof;

and by such further documents, information or evidence as may be required by the Registrar or as may be prescribed.

(2) When the requirements of sub-section (1) have been complied with, if the Registrar is satisfied that in all the circumstances the use of the trade mark in respect of the proposed goods or any of them by the proposed registered user subject to any conditions or restrictions which the Registrar may think proper, would not be contrary to the public interest, the Registrar may register subject as aforesaid, the proposed registered user as a registered user in respect of the goods as to which he is so satisfied.

(3) The Registrar shall refuse an application under this section if it appears to him that the grant thereof would tend to facilitate trafficking in a trade mark.

(4) The Registrar may, if so requested by an applicant, take steps for securing that attestation given for the purposes of an application under this section (other than matter entered in the register) is not disclosed to rivals in trade.

(5) The Registrar shall issue notice in the prescribed manner—

(ii) that the proprietor or the registered user misrepresented, or failed to disclose, some fact material to the application for the registration, or that the circumstances have materially changed since the date of the registration;

(d) may be cancelled by the Registrar in respect of any goods in relation to which the trade mark is no longer registered.

Registered user not to have rights of assignment or transmission.

Use of one of associated or substantially identical trade marks registered to use of another.

44 (1) Where under the provisions of this Act use of a registered trade mark is required to be proved for any purpose, the tribunal may, if and so far as it shall think right, accept use of a registered associated trade mark, or of the trade mark with additions or alterations not substantially affecting its identity, as an equivalent for the use required to be proved.

(2) The use of the whole of a registered trade mark shall for the purposes of this Act be deemed to be also a use of any trade mark being a part thereof and registered in accordance with sub-section (1) of section 13 in the name of the same proprietor

45 (1) The application in British India of a trade mark to goods to be exported from British India, and any other act done in British India in relation to goods to be so exported which, if done in relation to goods to be sold or otherwise traded in within British India would constitute use of a trade mark therein, shall be deemed to constitute use of a trade mark therein, shall be deemed to constitute use of the which such use is material under this Act or any other law.

(2) The use of a registered trade mark in relation to goods between which and the person using the mark any form of connection in the course of trade subsists shall not be deemed to be likely to cause deception or confusion on the ground only that the mark has been or is used in relation to goods between which and the person using the mark or any predecessor in his business different form of connection in the course of trade subsisted or subsists

CHAPTER VII.

Rectification and Correction of the Register.

Power to cancel or vary registration and to rectify the register.

46. (1) On application in the prescribed manner by any person aggrieved to a High Court or to the Registrar, the tribunal may make such order as it may think fit for cancelling or varying the registration of a trade mark on the ground of any contravention of, or failure to observe a condition entered on the register in relation thereto.

(2) Any person aggrieved by the absence or omission from the register of any entry, or by any entry made in the register without sufficient cause, or by any entry wrongly remaining on the register, or by any error or defect in any entry in the register, may apply in the prescribed manner to a High Court or to the Registrar, and the tribunal may make such order for making, expunging or varying the entry as it may think fit.

(3) The tribunal may in any proceeding under this section decide any question that it may be necessary or expedient to decide in connection with the rectification of the register.

(4) A High Court or the Registrar, of its or his own motion, may, after giving notice in the prescribed manner to the parties concerned and after giving them an opportunity of being heard, make any order referred to in sub-section (1) or sub-section (2).

(5) Any order of the Court rectifying the register shall direct that notice of the rectification shall be served upon the Registrar in the prescribed manner who shall upon receipt of such notice rectify the register accordingly.

47. (1) The Registrar may, on application made in the prescribed manner by the registered proprietor,—

(a) correct any error in the name, address or description of the registered proprietor of a trade mark;

Alteration of registered trade mark.

48. (1) The registered proprietor of a trade mark may apply in the prescribed manner to the Registrar for leave to add to or alter the trade mark in any manner not substantially affecting the identity thereof, and the Registrar may refuse leave or may grant it on such terms and subject to such limitations as he may think fit.

(2) The Registrar may cause an application under this section to be advertised in the prescribed manner in any case where it appears to him that it is expedient so to do, and where he does so, if within the prescribed time from the date of the advertisement any person gives notice to the Registrar in the prescribed manner of opposition to the application, the Registrar shall, after hearing the parties if so required, decide the matter.

(3) Where leave is granted under this section, the trade mark as altered shall be advertised in the prescribed manner, unless the application has already been advertised under sub-section (2).

Adaptation of register to amended or rationalised classification of goods.

(1) The Registrar shall not, in exercise of any power conferred on him under clause (a) of sub-section (3) of section 33, make any amendment of the register which would have the effect of adding any goods or classes of goods to those in respect of which a trade mark is registered (whether in one or more classes) immediately before the amendment is to be made, or of antedating the registration of a trade mark in respect of any goods:

Provided that this sub-section shall not apply where the Registrar is satisfied that compliance therewith would involve undue complexity and that the addition or antedating, as the case may be, would not affect any substantial quantity of goods and would not substantially prejudice the rights of any person.

(2) A proposal so to amend the register shall be notified to the registered proprietor of the trade mark affected and advertised in the prescribed manner, and may be opposed before the Registrar by any person aggrieved on the ground that the proposed amendment contravenes the provisions of sub-section (1).

CHAPTER VIII

Certification Trade Marks.

Power etc. of this Act applicable to certification trade marks.

50. Subject to the provisions of this Chapter, the other provisions of this Act except sections 8, 21, 22, 31, 32, 33, 35, 37, 38, 39, 40, 41, 42, 43 and 45 and sub-section (2) of section 46 shall apply to certification trade marks as they apply to trade marks.

Certification trade mark not to be registered in name of person trading in goods certified thereby.

51. A mark shall not be registrable as a certification trade mark in the name of a person who carries on a trade in goods of the kind certified.

Determination whether a mark is adapted to distinguish.

52. In determining whether a mark is adapted to distinguish in accordance with the provisions of clause (b) of sub-section (1) of section 2, the tribunal may have regard to the extent to which—

(a) the mark is inherently so adapted to distinguish in relation to the goods in question; and

(b) by reason of the use of the mark or of any other circumstances, the mark is in fact so adapted to distinguish in relation to the goods in question.

Application for registration.

53. (1) An application for the registration of a mark as a certification trade mark shall be made to the Registrar in writing in the prescribed manner by the person proposed to be registered as the proprietor thereof, and accompanied by a draft of the regulations to be deposited under section 56.

(2) The provisions of section 14 shall have effect in relation to an application under this section as they have effect in relation to an application under the said section, except that for references therein to acceptance of an application there shall be substituted references to authorisation to proceed with the application.

(3) In dealing under the said provisions with an application under this section, the tribunal shall have regard to the like considerations, so far as relevant, as if the application were an application under section 14 and to any other considerations (not being matters within the competence of the Central Government under section 54) relevant to applications under this section, including the desirability of securing that a certification trade mark shall comprise some indication that it is a certification trade mark.

Consideration of application by registrar by Central Government.

54. When authorization to proceed with an application under section 53 has been given, the Registrar shall forward the application to the Central Government who shall consider the application with regard to the following matters, namely:—

(a) whether the applicant is competent to certify the goods in respect of which the mark is to be registered;

(b) whether the draft of the regulations to be deposited under section 56 is satisfactory;

(c) whether in all the circumstances the registration applied for would be to the public advantage,

and may either—

(i) direct that the application shall not be accepted; or

(ii) direct the Registrar to accept the application and approve the said draft of the regulations either without modification and unconditionally or subject to any conditions or limitations, or to any amendments or modifications of the application or of the regulations, which it thinks requisite having regard to any of the said matters;

but, except in the case of a direction for acceptance and approval without modification and unconditionally, the Central Government shall not decide the matter without giving to the applicant an opportunity of being heard:

Provided that the Central Government may, at the request of the applicant made with the concurrence of the Registrar, consider the application with regard to any of the said matters before authorization to proceed with the application has been given, so however that the Central Government shall be at liberty to reconsider any matter on which it has given a decision under this proviso if any amendment or modification is thereafter made in the application or in the draft of the regulations.

Cancellation of registration.

55. (1) When an application has been accepted, the Registrar shall, as soon as may be thereafter, cause the application as accepted to be advertised in the prescribed manner, and the provisions of section 15 shall have effect in relation to the registration of the mark as if the application had been an application under section 14:

Provided that, in deciding under the said provisions the tribunal shall have regard only to the considerations referred to in sub-section (3) of section 53, and a decision under the said provisions in favour of the applicant shall be conditional on the determination in his favour by the Central Government under sub-section (2) of this section of any questions relating to any of the matters referred to in section 54.

(2) When notice of opposition is given relating to any of the matters referred to in section 54, the Central Government shall, after hearing the parties, if so required, and considering any evidence decide whether, and subject to what conditions or limitations, or amendments or modifications, if any, of the application or of the regulations to be deposited under section 56, registration is, having regard to those matters, to be permitted.

Deposit of regulations governing the use of a certification trade mark.

56. (1) There shall be deposited at the Patent Office in respect of every mark registered as a certification trade mark regulations approved by the Central Government for governing the use thereof, which shall include provisions as to the cases in which the proprietor is to certify goods and to authorise the use of the certification trade mark, and may contain any other provisions which the Central Government may by general or special order require or permit to be inserted therein (including provisions conferring a right of appeal to the Registrar against any refusal of the proprietor to certify goods or to authorise the use of the certification trade mark in accordance with the regulations); and regulations so deposited shall be open to inspection in like manner as the register.

(2) The regulations so deposited may on the application of the registered proprietor be altered by the Registrar with the consent of the Central Government.

(3) The Central Government may cause such application to be advertised in any case where it appears to it expedient so to do, and where it does so, if within the time specified in the advertisement any person gives notice of opposition to the application, the Central Government shall not decide the matter without giving the parties an opportunity of being heard.

Right conferred by registration.

57. Subject to the provisions of sections 25, 26 and 58, the registration of a person as proprietor of a certification trade mark in respect of any goods shall, if valid, give to that person the exclusive right to the use of the certification trade mark in relation to those goods, and, without prejudice to the generality of the foregoing provision, that right shall be deemed to be infringed by any person who, not being the proprietor of the mark or a person authorised by him in that behalf under the regulations deposited under section 55, using it in accordance therewith, uses a mark identical with it or so nearly resembling it as to be likely to deceive or cause confusion, in the course of trade in relation to any goods in respect of which it is registered, and in such manner as to render the use of the mark likely to be taken either—

(a) as being used as a certification trade mark, or

(b) to import a reference to some person having the right either as proprietor, or by his authorisation under the said regulations, to use the mark, or to goods certified by the proprietor.

No infringement in certain circumstances.

58. (1) The right to the use of a certification trade mark given under section 57 by registration shall be subject to any conditions or limitations entered on the register, and shall not be deemed to be infringed by the use of any such mark as aforesaid in any mode, in relation to goods to be sold or otherwise traded in in any place in relation to goods to be exported to any markets, or in any other circumstances, to which having regard to any such limitations, the registration does not extend.

(2) The said right to the use of a certification trade mark shall not be deemed to be infringed by the use of any such mark as aforesaid by any person—

(a) in relation to goods certified by the proprietor of the mark if, as to those goods or a bulk of which they form part, the proprietor or another in accordance with his authorisation under the relevant regulations has applied the mark and has not subsequently removed or obliterated it or the proprietor has at any time expressly or impliedly consented to the use of the mark, or

(b) in relation to goods adapted to form part of, or to be accessory to, other goods in relation to which the mark has been used without infringement of the right given as aforesaid or might for the time being be so used, if the use of the mark is reasonably necessary in order to indicate that the goods are so adapted and neither the purpose nor the effect of the use of the mark is to indicate otherwise than in accordance with the fact that the goods are certified by the proprietor:

Provided that clause (a) shall not apply to the case of use consisting of the application of any such mark as aforesaid to any goods, notwithstanding that they are such goods as are mentioned in that clause, if such application is contrary to the said regulations.

(3) Where a certification trade mark is one of two or more registered certification trade marks which are identical or nearly resemble each other, the use of any of those marks in exercise of the right to the use of that mark given by registration, shall not be deemed to be an infringement of the right so given to the use of any other of those marks.

Cancellation or variation of registration.

59. (1) The Central Government may, on the application in the prescribed manner of any person aggrieved or on the representation of the Registrar, and after giving the proprietor an opportunity of opposing the application or representation, make such order as it thinks fit for expunging or varying any entry in the register relating to a certification trade mark, or for varying the deposited regulations, on any of the following grounds, namely —

(a) that the proprietor is no longer competent, in the case of any of the goods in respect of which the mark is registered, to certify those goods;

(b) that the proprietor has failed to observe any provision of the deposited regulations to be observed on his part;

(c) that it is no longer to the public advantage that the mark should be registered;

(d) that it is requisite for the public advantage that, if the mark remains registered, the regulations should be varied,

and neither a High Court nor the Registrar shall have any jurisdiction to make an order under section 46 on any of these grounds.

(2) The Registrar shall rectify the register and the deposited regulations in such manner as may be requisite for giving effect to an order made under sub-section (1).

Costs not to be awarded in certain cases.

60. The Registrar shall have no power to award costs to or against any party on an appeal to him against a refusal of the proprietor of a certification trade mark to certify goods or to authorise the use of the mark.

(2) If any person contravenes any of the provisions of sub-section (1), he shall be punishable with imprisonment for a term which may extend to six months, or with fine which may extend to five hundred rupees, or with both.

(3) For the purposes of this section, the use in British India in relation to a trade mark of the word "registered", or of any other expression referring whether expressly or impliedly to registration shall be deemed to import a reference to registration in the register, except—

(a) where that word or other expression is used in direct connection with other words delineated in characters at least as large as those in which that word or other expression is delineated and indicating that the reference is to registration as a trade mark under the law of a country outside British India being a country under the law of which the registration referred to is in fact in force; or

STATEMENT OF OBJECTS AND REASONS.

In May 1870 the Government of India introduced a Bill in the Imperial Legislative Council for the registration of trade marks in India, but legislation was not proceeded with owing to lack of support from commercial bodies. Since then the question of undertaking legislation has been considered by the Government of India on several occasions. Until 1928 commercial opinion in India was found, either unanimously or on the balance, to be against the proposal. The demand for legislation has, however, strengthened during the last ten years, with the growth of industry and trade in India and the increasing realization that without a system of statutory registration trade marks cannot enjoy adequate protection either at home or abroad.

The proposals in the Bill which are generally based on the United Kingdom Trade Marks Act, 1938 (1 & 2 Geo. 6, Ch. 22) are explained in the notes on clauses below.

A. RAMASWAMI MUDALIAR.

SIMLA,
The 14th September 1939.

NOTES ON CLAUSES.

Clause 4.—This clause provides for the maintenance of a register of trade marks at the Patent Office, Calcutta, under the control and management of the Controller of Patents and Designs, who for the purposes of the Act, will be called the Registrar of Trade Marks.

Clause 5.—Under this clause a trade mark is registered only in respect of particular goods or classes of goods.

Clause 6.—This clause forms the pivot of the proposed legislation and lays down the conditions on which a trade mark will be entitled to registration under the Act.

Clause 9.—Under this clause the use of the usual names of chemical elements as trade marks is barred in respect of chemical substances or preparations.

Clause 25.—This clause is designed to safeguard the rights of a prior user.

Clause 26.—This clause provides that registration of a trade mark does not interfere with the right of a person to the *bona fide* use for the purpose of business of his own name or the name of his place of business or a *bona fide* description of the character or quality of his goods.

Clause 27.—The provisions of this clause are designed to safeguard the legitimate interests of exporters and others without permitting the creation of an exclusive monopoly in words which the trade mark contains or of which it consists as the name or description of an article or substance.

Clause 28.—Under this clause a registered proprietor of a trade mark is empowered to assign the mark to another person and to give receipts for any consideration for such assignment.

Clause 29.—This clause permits of the assignment or transmission of a registered trade mark for the whole or part of the goods in some goods in more than one person are prohibited.

Clause 32.—This clause prohibits assignments or transmissions to more than one person of the same or resembling marks in respect of the same goods in separate parts of British India, unless the Registrar is satisfied that the use of the marks in exercise of those rights would not be contrary to the public interest.

Clause 33.—This clause empowers the Registrar, in cases of assignment otherwise than in connexion with the goodwill of a business to direct the assignee to advertise the assignment so that the fullest publicity may be given to the transfer.

Clause 34.—This clause requires that the consent of the Central Government shall be obtained to the assignment or transmission of a certificated trade mark, and provides that associated trade marks are assignable and transmissible only as a whole.

Clause 35.—This clause prescribes the procedure for the registration of the title of a person to the assignments and transmissions of registered trade marks.

Clause 36.—The provisions of this clause enable trade mark owners to register their marks for use by a company which is about to be formed.

Clause 32.—This clause provides that unused trade marks may be removed from the Register of Trade Marks as also the marks which have not been used for five years in a particular area or market in British India.

Clause 33.—This clause provides for the registration of well known trade marks as defensive trade marks subject to safeguards which are designed to protect the interests of the general body of traders.

Clause 39.—Under this clause trade mark owners who may not wish to assign or transmit their marks may appoint other persons as registered users of their trade marks.

Clause 54.—This clause provides for consideration of an application for the registration of a mark as certification trade mark by the Central Government after permission to proceed with that application under clause 53 has been accorded by the Registrar of Trade Marks.

Clause 55.—This clause lays down the procedure to be followed after an application for the registration of a mark as certification trade mark has been accepted by the Central Government.

Clause 56.—This clause requires the deposit of regulations approved by the Central Government for governing the use of each certification trade mark which is registered.

Clauses 57 and 58.—These clauses, analogous to clauses 51 and 52, respectively, define the rights conferred on an owner of a certification trade mark by registration and lay down the conditions and limitations in which there will be an infringement of a certification trade mark.

"No. 7.

USE OF SOUND SIGNALS PROHIBITED.

Cross and border—Red
Background—White
Device—Black."

STATEMENT OF OBJECTS AND REASONS.

It was recognised when the Motor Vehicles Act, 1939, was under discussion that Provincial Governments would require a considerable period of time to draft rules under the Act and that as previous publication of rules was made obligatory, a further period of several months would have to elapse between the publication of draft rules and the promulgation of the final rules. The object of section 134 (2) was to allow the rules made under the Act of 1914 to remain in operation for a time sufficient to enable the Provincial Governments to frame new rules and bring them into effect. But difficulties and doubts have arisen regarding the effect of this sub-section, when read with section 1 (3). Thus:—

(i) As section 134 (2) does not limit the operation of section 1 (3), it would seem to be obligatory upon Provincial Governments to set up Transport Authorities at once, i.e., before they are in a position to frame the rules on which these authorities depend for their proper working, and while rules designed to suit different methods of control are still in force.

(ii) It is doubtful whether the penal provisions in sections 112 and 114 of the present Act extend to contraventions of rules made under the Act of 1914 and whether the repeal of the latter Act, including its penal provisions, does not prevent any penalty being imposed for breaches of rules made under it, except where the offences are specifically mentioned in Chapter IX of the new Act.

(iii) It is doubtful whether fees are to be levied as specified in sub-section (8) of section 7 and sub-section (7) of section 11 of the new Act in respect of the grant or renewal of a driving license, or according to the old rules.

2 Clause 2 of the Bill therefore seeks to meet the difficulties by relieving Provincial Governments of the obligation of setting up Transport Authorities before they have made rules which will enable these Authorities to operate effectively. The reference to section 38 is included because that section is also dependent on rules under the new Act for its operation. Clause 3 seeks to remove the doubts which have arisen regarding the levy of fees and the imposition of penalties.

3. The opportunity has been taken to include some minor amendments. Clauses 4 and 5 are designed to make clear to applicants and medical practitioners the nature of the test to be applied for colour-blindness. Clause 6 seeks to remedy an omission, and clause 7 to substitute a sign approved by the Transport Advisory Council as giving a clearer indication of what is intended than that in the Act.

The following Bill was introduced in the Legislative Assembly on the 10th September 1930 :—

L.A. BILL No. 32 OF 1930.

A Bill further to amend the Insurance Act, 1938, for a certain purpose

17 of 1938

WHEREAS it is expedient further to amend the Insurance Act, 1938, for the purpose hereinafter appearing, it is hereby enacted as follows :—

1. This Act may be called the Insurance (Second Amendment) Act, 1930. Short title.

2. In clauses (a) and (b) of sub-section (2) of section 3 of the Insurance Act, 1938, after the words and figure " incorporated under the Indian Companies Act, 1913," the words and figure " or under the Indian Companies Act, 1882, or under the Indian Companies Act, 1866, or under any Act repealed thereby," shall be inserted. Amendment of section 3 of Act 7 of 1938

STATEMENT OF OBJECTS AND REASONS.

Section 3 (a) of the Insurance (Amendment) Act, 1930 (XI of 1930) amended section 17 of the Insurance Act, 1938 (IV of 1938) to include references to companies incorporated under the law in force prior to the commencement of the Indian Companies Act, 1913 (VII of 1913). The need to amend in similar manner section 3 of the 1938 Act was overlooked at the time, and this Bill is intended to supply that omission.

The following Bill was introduced in the Legislative Assembly on the 21st September 1939:—

L.A. BILL No 43 OF 1939.

A Bill further to amend the Workmen's Compensation Act, 1923, for a certain purpose

VIII of 1923. WHEREAS it is expedient further to amend the Workmen's Compensation Act, 1923 for the purpose hereinafter appearing; It is hereby enacted as follows:—

Short title and retrospective operation.

1. (1) This Act may be called the Workmen's Compensation (Second Amendment) Act, 1939.

(2) It shall be deemed to have come into force on the 3rd day of September 1939.

VIII of 1923.

Amendment of section 15 of Act VIII of 1923.

2. In section 15 of the Workmen's Compensation Act, 1923, after clause (f) the following clause shall be inserted, namely:—

"(g) No compensation shall be payable under this Act in respect of any personal injury for which a payment could be obtained under any scheme while under the Personal Injuries (Emergency Provisions) Act, 1939:

2 & 3 Geo. 6, c. 31.

Provided that the failure to give a notice or make a claim or commence proceedings within the time required by this Act shall not be a bar in the maintenance of proceedings under this Act in respect of any personal injury, if—

(a) an applicant on the 4 payment under any such scheme has been duly made in respect of the injury, and

(b) the Commissioner is satisfied that the said application was made in the reasonable belief that the injury was such that a payment could be made under the said scheme, and

(c) the Provincial Government certifies that the application was rejected or that payments made in pursuance of the said application were discontinued, on the ground that the injury was not such an injury, and

(d) the proceedings under this Act are commenced within one month from the date of the said certificate of the Provincial Government."

STATEMENT OF OBJECTS AND REASONS.

Under the Personal Injuries (Emergency Provisions) Act, 1939 amongst other people seamen who sustain injuries in certain circumstances are entitled to compensation from the State. Under the Workmen's Compensation Act, 1923 (VIII of 1923) seamen sustaining similar injuries will in certain circumstances be entitled to claim compensation from their employers. To prevent the possibility of this double claim for the same injuries it is proposed to amend the Workmen's Compensation Act, 1923 taking away from seamen any right to claim compensation under that Act in cases where they are entitled to compensation under the Personal Injuries (Emergency Provisions) Act, 1939. A similar provision is contained in the latter Act as regards persons to whom Workmen's Compensation Acts of the United Kingdom apply. Provision is also made in the amending Bill saving limitations under the 1923 Act in cases where a *bona fide* claim under the 1939 Act is made and rejected.
